

Dear Sir/Madam,

My name is [Your Full Name]. I am interested to apply for the [Scholarship Name] for the B.Sc. Electrical Engineering at University in Latvia.

I have read information about the scholarship on the University website with great interest and I believe it is well suited to my career goals.

With the scholarship, I can contribute positively to the public and private sector. This programme will provide me a good understanding of development, maintenance and management in the field of robotics, control systems, telecommunication and building services.

With the fourth industrial revolution that involves smart devices and increased automation, electrical engineers are going to be in high demand. After completing my bachelor's degree, I am expected to secure important positions in the electrical power sector, electronics and telecommunication industry, and in new innovative startups.

The electrical system is an essential part of every industry and this programme provides the essential skills and knowledge required to secure supervisory positions for managing electrical systems.

Thanks for considering me for this scholarship. I look forward to hearing from you soon.

Sincerely,

Your Full Name.
