

Dear Sir/Madam

My name is [Your Full Name] I am interested in applying for a Pharm.D Scholarship at University in the UK. I have read information about Pharm.D on the University website with great interest.

I have finished my high school diploma from a renowned high school.

The Pharm.D programme aims at consolidating rigorous basic science education with extensive and clinical experiences so that graduates will be equipped to contribute to revolutionizing the future of health care through new discoveries and developments to improve health and lives of others. The programme instills an in-depth understanding of medicines to prepare the next generation of healthcare leaders who may discover tomorrow's cures and treating today's most complex diseases.

After the successful completion of the Pharm.D, I would have opportunities and career choices linked to the field of pharmaceuticals. I can opt for production, analysis & testing of medicine with the knowledge acquired from the programme. Pharmacy practice is another option where I can provide assistance or consultancy in drug stores and clinics. The programme will enable me to take part in the research department to innovate and search for new cures for diseases.

I have attached my Resume, Educational Certificates with the application. I hope to get the scholarship award to study Pharmacy at this University.

Thank you very much for your precious time.

Best Regards
