

Respected Sir/Madam,

Here's hoping that this letter reaches you in good spirit.

I am [Name of Candidate] and I would like to take this opportunity to state how truly passionate I am about pursuing my higher education at a university with such a grand heritage. The reputation of a master's program in science from your university is world renowned and I shall be honoured to be considered for a place in the program.

I hold a bachelor's degree in Civil Engineering and my strong grades along with the complex projects I have undertaken make me a good candidate for your program. I have always dreamt of making impactful changes in the field of civil engineering and I had determined to make it my career early on in my undergraduate years.

I have also had the opportunity to intern with [Name of Company] and that has instilled in me great appreciation for the subject and taught me valuable skills required in the industry. Additionally, I have finished a course in Computed Aided Design from [Name of Organization] which I know will give me an edge while studying the subject at a master's level.

With this, I would like to close my Letter of Motivation and earnestly hope that my resume and the deep desire that I must pursue M.S. from your university will help in securing a position in the upcoming academic session starting on.

Warm Regards,

Your Fullname.
